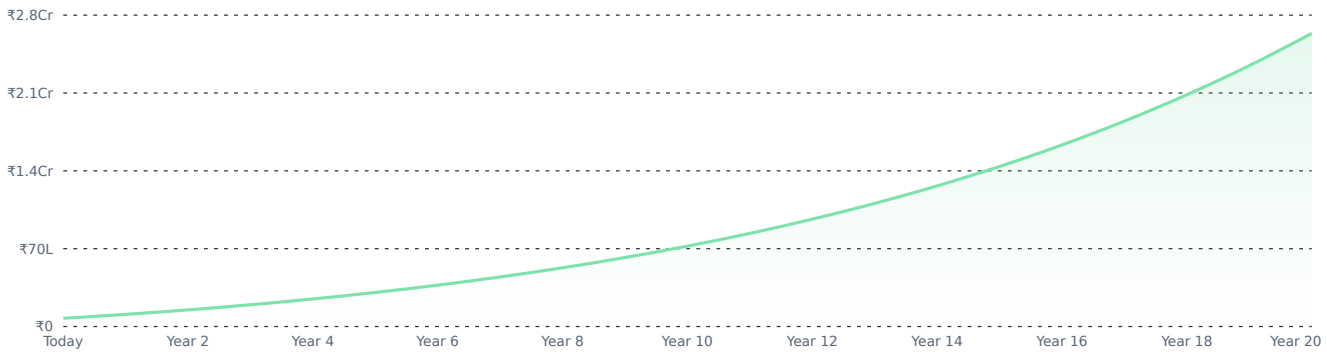
Current net worth	Monthly surplus	Financial health
₹7,43,000	₹13,000	34 / 100
Assets less liabilities	After expenses and debt payments	Transparent rule-based score

20-year planning outlook



Assumed investment return 8%, inflation 5%, income growth 6%, expense growth 5%. End-of-month contributions; no taxes, fees, volatility or retirement income change.

Priorities

Put your monthly surplus to work
₹13,000 remains after living expenses and scheduled debt payments.

Build your emergency cushion
Add ₹311,000 to reach 6 months of essential expenses and debt payments.

Review expensive debt first
Credit card balance has the highest rate among debts at or above 18%. Compare repayment strategies.

Your goals compete for the same budget
Combined goal contributions exceed your available surplus by ₹21,686. Adjust targets or deadlines.

FIRE scenarios

Illustrative withdrawal rate 4%. Fixed contributions; no taxes, fees, volatility or retirement withdrawals modelled.

Lifestyle	Target today	Target at retirement	Projected gap
Lean FIRE	₹1,89,00,000	₹9,00,57,394	₹8,04,32,986
Normal FIRE	₹2,52,00,000	₹12,00,76,525	₹11,04,52,117
Fat FIRE	₹3,78,00,000	₹18,01,14,788	₹17,04,90,379

SWOT & recommended actions

Strengths

Monthly surplus of ₹13,000 after expenses and EMIs.

Weaknesses

Emergency reserve shortfall: ₹311,000.

Active health coverage has not been recorded.

Opportunities

Reducing wants by 10% could release ₹800/month.

Compare Lean, Normal and Fat FIRE budgets against your affordable monthly contribution.

Threats

Debt at 18% APR or above can slow wealth accumulation.

Dependants or debt obligations without recorded life/term protection.

Inflation, market losses and changing family costs can alter FIRE outcomes.

P1 · Review high-interest debt: Compare avalanche and snowball repayment within your available budget.

P1 · Review health protection: Record active cover and review exclusions, family coverage and affordability.

P1 · Review life/term protection: Assess income replacement and obligations; record active cover.

P2 · Build your emergency reserve: Target ₹456,000; designate liquid cash assets as emergency funds. Contributions share your monthly surplus.

P3 · Review your FIRE plan: Compare lifestyle targets, retirement age and the affordable monthly contribution.

How the health score works

Cash flow: 25 points. Designated liquid emergency reserve: 25 points. Debt burden: 20 points. Recorded protection: 20 points. Affordable planned investment habit: 10 points. See Financial health for full criteria. Empty plans score zero. This is a project heuristic, not a validated financial or credit assessment.
